"The DLP is a great network with members who are knowledgeable and in the leading edge of this line of work. It enables me to show myself as a better qualified professional. I am able to say that I was a participant in a program with an excellent reputation whose members are national leaders, experts, and practitioners."

"Having participated in the DLP prepared me to feel more confident in facing organizational challenges. I feel I can speak with more authority than before. Where I've grown as a leader, we've been faced with all kinds of challenges, and we have met most of them successfully. That's led to my growth and how I manage these challenges."

"The DLP helped us present comprehensive goals and objectives that the senior leadership really believed in. They saw it was important. I don't think we would have had any type of a program without the DLP."
